

Presenting Uniproducts Wide Range of Metal Solutions

Who Are We?

Chicago area-based **Uniproducts, Inc** is a leading domestic and export marketer of metal products. We represent many of the largest primary producing mills, rerolling mills, metal distributors and recycling organizations in North America, servicing aluminum, cobalt, copper alloys, nickel, stainless steel and titanium. From raw material procurement through recycling, Uniproducts offers a full spectrum of metal solutions to meet your business requirements.

Our 30 years of metals industry expertise provides you with market knowledge in:

- **Distribution**
- **Fabricating**
- **Melting**
- **Rolling**
- **Recycling**

With facilities strategically located throughout the United States, Uniproducts is your complete "metal solutions" company, offering a unique approach to metal procurement.

Our primary focus is directed at developing customized programs for distributors, metal fabricators, primary producing mills and toll processors.

Why Uniproducts?

Business owners responsible for the long-term profitability of their companies are now seeking new and innovative industry approaches to enhance their bottom line. Such progressive thinking allows Uniproducts to offer you a competitive market advantage.

What We Provide:

- **Comprehensive vendor analysis**
- **Ongoing consultation and competitive bids analysis**
- **Efficient "scrap buy-back" programs that meet your needs**
- **Strategic business alliances**
- **Customized, one-on-one consultations**
